

April 2, 2024

Dear Chargers,

A solar eclipse will occur on Monday, April 8, 2024, starting around 2:00 PM and concluding around 4:30 PM. The eclipse will occur during our regularly scheduled school dismissal times. Students could be interested in looking at the eclipse due to it being out of the norm. It is important for students to wear proper eyewear if they are viewing the eclipse. Additionally, due to the effects of the eclipse, driving during the eclipse may influence drivers on the road. The safety of students is of the utmost importance.

Since the eclipse will occur during our regularly scheduled school dismissal times, **we will have an early dismissal on Monday, April 8, 2024.**

Elementary School: 12:20 PM

Jr./Sr. High School: 12:40 PM

After-school Activities will resume at 5:00 PM

Pennsylvania Department of Education (PDE) has published [Solar Eclipse Guidance](#). Also, the National Weather Service (NWS) in Binghamton has released a [10-minute Total Solar Eclipse Information Video](#) which provides information on what to expect during the eclipse. Please visit the PDE and NWS websites for information on safely viewing the solar eclipse.

Carbondale Area School District appreciates your continued support.
